

Paradigm Shift Technologies, Inc (PST) is a cloud-first professional services company that provides strategic technology consulting and IT management services to commercial, not-for-profit and government organizations.

We specialize in implementing FedRAMP-compliant solutions that solve your organization's IT problems in a secure, robust manner with minimal disruption to your operations.

WHAT SETS PST APART FROM THE COMPETITION?

PST sees migration to the cloud as a means to modernization, not an end. Our team provides the vision and roadmap for your cloud journey, with guidance on application architecture, infrastructure, integrations for updating legacy processes, and strategies to align with your business objectives.
